

LIGHTING BALL

Protection degree: IP 55
Classification: class II
Body: UV stabilized plastic
Colour: white
Power supply: 230V 50Hz
Lamp: compact fluorescent
 23W / E27

FOR EXTERIOR AND INTERIOR

Balls create a natural fusion of effective orientation illumination and suggestive atmosphere. Lighting balls make interesting places in your garden or interior.

USE:

Exteriors:

- entrance zones of buildings
- decorations of gardens, lawns, rockeries, surroundings of pools, lakes, etc.

Interiors:

- winter gardens
- flower corners
- decorative illumination of living rooms, etc.

When placing the ball in exterior, we recommend to use a spike for fixation.
